Vision vs. Medical Eye Health Exams

Both vision plans and medical insurances cannot be billed on the same date of service without risk of denial and balances being transferred to patients. Our physicians will address the most pressing eye health issue and bill appropriately, but this may require multiple visits to completely care for your eye health care needs. You will be informed when this is the case.

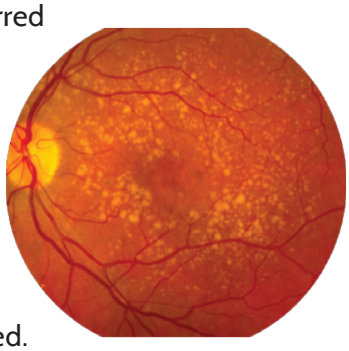
RETINAL HEALTH EVALUATION

One of the most important parts of today's comprehensive eye exam is the examination of the inside part of your eye, the retina. A healthy retina is critical to your vision, and needs to be examined for such conditions as macular degeneration, glaucoma, retinal holes, retinal detachments and complications from diabetes, high blood pressure and high cholesterol.

THERE ARE TWO METHODS FOR THE BCEC EYE DOCTORS TO PROPERLY EVALUATE YOUR RETINA

DILATION OF THE PUPIL

This traditional procedure allows your eye doctor a 3D evaluation of the retina using eye drops to enlarge and stabilize your pupils. They then use a high-powered microscope and magnifying lenses to view inside your eyes. The drops used will cause your vision to be blurred and your eyes to be sensitive to lights/sunlight for 2-4 hours in most cases. Patients with diabetes or retinal symptoms should be dilated on a yearly basis.



EIDON HD RETINAL IMAGING

This technology offers an ultra-wide view of the retina and allows your eye doctor to instantly evaluate your retinal health. In many cases, in otherwise healthy patients, dilation is not required if photos are evaluated. These digital images can be stored for future use in detection of subtle retinal changes. They can also be sent to other physicians in the event that you ever require co-managed care.

THE MOST THOROUGH RETINAL EVALUATION WOULD BE TO HAVE BOTH PROCEDURES PERFORMED AS THEY COMPLEMENT EACH OTHER IN DETECTING SIGHT THREATENING CONDITIONS.

THE EYE DOCTORS AT BCEC HIGHLY RECOMMEND AT LEAST ONE OF THESE TESTS TO COMPLETE YOUR COMPREHENSIVE EYE EXAM.

During my comprehensive eye exam today, I would like:

☐ **Dilation** (Included in your exam)

☐ **Eidon HD Retinal Imaging** (Additional $25 charge, not covered by most insurances)

☐ **Neither Procedure.** By choosing this option you agree to the following: I have chosen to have neither test performed against the recommendation of the BCEC eye doctors. I will not hold the physicians or practice responsible for any disease or pathology that goes undetected due to the lack of diagnostic information that could have been obtained through retinal imaging or dilation.
